DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 22 are allowed.

The following is an examiner's statement of reasons for allowance:

- The Examiner found Applicant's filed arguments persuasive, and further considers that the references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations discussed in the previous Office Action mailed on June 28, 2005, and further comprising the limitations of **(With respect to claim 1)** the particular combination wherein the piece of expandable material is shaped in the form of a wafer presenting two parallel main faces and extending essentially in a main plane away from the first wall portion towards the diametrically opposite wall portion, *and wherein the support allows the wafer to expand in all directions*; nor **(With respect to claim 16)** in which the wafer support is formed by an adhesive strip having the same ingredients as the expandable wafer, together with a resin of phenolic or equivalent type, the ingredients being taken in proportions that are suitable for forming a material that is flexible and suitable for adhering both to the expandable wafer and to the wall of the tubular part.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
